

## Production Technician

Are you looking for an opportunity to take ownership of your work? Do you enjoy working in a tight-knit team? Zaber Technologies ([www.zaber.com](http://www.zaber.com)) is looking for a Production Technician to build high precision products with a high degree of accuracy and quality.

As a member of the Production team, you'll work closely with your co-workers to assemble our line of precision motion control devices. We're looking for someone who has excellent attention to detail, enjoys working with a team to get a job done, and is excited about improving their skills.

### Responsibilities

On a day-to-day basis, you can expect to:

- Build cable assemblies and mechanical sub-assemblies
- Assemble a variety of motion control devices
- Edit and update work instructions as necessary

### Qualifications

- Excellent attention to detail, manual dexterity, and hands-on skills
- Hardworking with strong organizational and time management skills
- Excellent verbal communication and listening skills
- Ability to work independently and in a team to achieve results and meet tight deadlines
- A professional attitude with a strong sense of commitment and integrity
- A willingness to learn and continually improve
- Basic computer skills including databases and spreadsheets

Ideally, you'll also have:

- Experience in a manufacturing environment
- Experience with electronics, soldering, and wire crimping
- A diploma in Mechatronics or similar

At Zaber, we strive to create an open, friendly, and high-achieving work environment. This is an opportunity to exercise your talents and creativity both at work and for personal projects: you'll have full access to our electrical equipment and machine shop which includes a waterjet, laser cutter, lathes, mills (both manual and CNC), and numerous other tools.

Find out directly from our employees what it's like to work at Zaber by visiting our Glassdoor profile: <http://tinyurl.com/zaber-at-glassdoor>

### How to Apply

If you are viewing this posting on a website other than Zaber's, you may want to visit <http://www.zaber.com/careers> to confirm that it's still open.

1. Email your application to [careers@zaber.com](mailto:careers@zaber.com)
2. As the subject of your email use "Application for Production Technician Position from [your name]."
3. Attach a cover letter and resume in one file to your email in PDF format (name it "firstname-lastname.pdf" in all lower case).
4. In your cover letter, please indicate how you heard about the job posting and describe something you have built yourself.

We are interested in direct applications only. No recruiters please.
